

2010 Honda Civic

GX Natural Gas Vehicle

Take a stand against fluctuating gas prices. The 2010 Honda Civic GX is the alternative you've been waiting for. Once gasoline prices are off your mind, you're free to enjoy the Civic GX's other liberating characteristics. Like the fact that it primarily utilizes U.S.-produced supplies of natural gas—instead of foreign oil. That it's been certified by the EPA as the cleanest internal combustion vehicle in the world¹—

ALTERNATIVE TO THE PUMP

11 years running. And that you can fill the tank with relative ease near home or work. And since GX is a dedicated alternative-fuel vehicle, you could qualify for a federal tax credit, up to \$4,000². An exhilarating characteristic every time you pass the pump.

ALTERNATIVE TO TRAFFIC

Despite new restrictions on carpool-lane eligibility, alternative-fuel vehicles like GX are still welcome in select markets.³ Even with only the driver aboard. Proof that owning a GX opens up opportunities. No matter what the traffic.

ALTERNATIVE ENERGY

Find a new level of energy, thanks to GX's highly responsive 1.8-liter i-VTEC® engine. GX-specific technologies include special high-strength forged pistons that help raise the compression ratio to 12.5:1. And special low-friction fuel injectors that deliver longer life and cleaner operation. Of course, GX is all Civic at heart, so it offers bold styling, a spacious interior and sporty handling. Safety features such as six airbags* and Honda's Advanced Compatibility Engineering™ (ACE™) body structure helped Civic earn a 5-star frontal crash-test rating from the National Highway Traffic Safety Administration (NHTSA).† civicgx.com

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

†Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).
